Hinweise:

Note:

- wenn eine Komponente oder Baugruppe in der Capability List (CL) aufgeführt ist, so besteht kein Bedarf die Einzelteile der Komponente oder Baugruppe aufzulisten.
- *Once the component or subassembly is identified on the Capability List (CL), there is no need to list the individual parts contained in that component or subassembly*
- MTU-BB muss die angemessene Ausrüstung, Personal, Material und Technische Dokumentation haben, um jeden Artikel, der in der CL gelistet ist, instandzuhalten. Wenn MTU-BB nicht die Möglichkeit zur Instandhaltung von Einzelteilen der Komponenten und Baugruppen oder diesbezügliche Arbeitsschritte hat, muß MTU-BB solche Teile an zugelassene Fremdfirmen schicken.
- *MTU-BB must have the proper equipment, personnel, materials and technical data to maintain each article listed in the CL. If MTU-BB has not the capability to maintain individual parts or work steps contained in that component or subassembly, MTU-BB should send those parts to approved contracted outside vendors.*
- n/a in Part Nummer bedeutet, dass es keine eigenständig Modul- P/N existiert
n/a in Part Number means no individual module- P/N do exist
- X-XX oder XX im ATA-Code bedeutet eine beliebige Zahlenkombination mit der Einschränkung, daß sich daraus ein zulässiger ATA-Code entsprechend den zugelassenen Instandhaltungsunterlagen (Manual, IPC) ergibt.
- *X-XX or XX in the ATA-Code means any number combination with the restriction that this combination results to a valid ATA-Code relevant to the approved maintenance Data.*
- Definition. "Overhaul" "Die Wiederherstellung des Sollzustandes eines gebrauchten Artikels durch Inspektion, Tests und Austausch in Übereinstimmung mit einer genehmigten Norm, zur Verlängerung der Betriebszeit"
"The restoration of a used item by inspection, test and replacement in conformity with an approved standard to extend the operational life."
