

### **Dr. Silke Maurer appointed to the Executive Board of MTU Aero Engines AG as Chief Operating Officer**

Munich, September 28, 2022 - Dr. Silke Maurer (49) is taking over responsibility for the OEM Operations division at MTU Aero Engines AG as Chief Operating Officer (COO). At an extraordinary meeting on September 28, 2022, the MTU's Supervisory Board appointed her to the company's Executive Board for a three-year term of office starting on February 1, 2023. OEM Operations covers most of the role of the present Chief Operating Officer, Lars Wagner, who will become CEO on January 1, 2023. He will remain responsible for Technology & Engineering and Sustainability in the future.

Most recently, Silke Maurer was Chief Operating Officer and a member of the Management Board of the Webasto Group, Munich. Prior to that, she held the same position at BSH Home Appliances GmbH, Munich. For almost 20 years of her career, Maurer, who has a doctorate in engineering, held various management positions in technical areas and human resources at BMW AG, Munich.

Gordon Riske, Chairman of MTU's Supervisory Board: "By appointing Silke Maurer, we have secured a high-profile manager for this demanding role in our high-tech company. She brings extensive experience of the relevant areas of operations and impressed the Supervisory Board with the clarity and sincerity of her leadership style."

The appointment means that MTU Aero Engines AG still has a four-member Executive Board. In the future, OEM Operations will comprise Operations at the sites in Munich (Germany) and Rzeszów (Poland) as well as group-wide responsibility for Procurement & Logistics, Value Stream Management, Enablement, and Corporate Quality.

#### **About MTU Aero Engines**

MTU Aero Engines is Germany's leading engine manufacturer. The company is a technological leader in low-pressure turbines, high-pressure compressors, turbine center frames as well as manufacturing processes and repair techniques. In the commercial OEM business, the company plays a key role in the development, manufacturing and marketing of high-tech components together with international partners. Some 30 percent of today's active aircraft in service worldwide have MTU components on board. In the commercial maintenance sector the company ranks among the top 3 service providers for commercial aircraft engines and industrial gas turbines. The activities are combined under the roof of MTU Maintenance. In the military arena, MTU Aero Engines is Germany's industrial lead company for practically all engines operated by the country's military. MTU operates a network of locations around the globe; Munich is home to its corporate headquarters. In fiscal 2021, the company had a workforce of over 10,000 employees and posted consolidated sales of nearly 4.2 billion euros.
